

Business Rules of the department:

Punjab is an economy where the basis for competitiveness is the intellectual capital and capability to absorb process and apply knowledge. We have a strong technological base both in public and private sector and a vibrant entrepreneurial culture that thrives on creativity, nimbleness and good business sense. Industries remain an integral component of the State economy, with capabilities in the entire manufacturing value chain, from R&D and design to marketing and sales. Punjab is building successful partnerships with foreign firms, strengthening domestic capabilities and forging strategic linkages. The industrial work force should be cost-competitive, motivated, and highly productive with world -class capabilities in industrial and business management, technology, R& D, production and services, and international market development. The Department of Industries & Commerce plays a pivotal role in rendering assistance to the entrepreneurs. The process of assistance begins with the very first stage of project identification to financial assistance up to the commissioning of Industrial units. The existing industry is also helped in the process of continuous up gradation of technology and modernization.
