- 5.13.1.12 Any non-adherence/non-compliance to applicable tender content.

5.14 Performance security and signing of contract

- 5.14.1 The successful bidder shall furnish PBG to DGRPG valuing 7% of the contract value within 20 days of issue of Letter of Intent (LoI)-cum-Work Order.
- 5.14.2 PBG shall remain valid for a period of 180 (one hundred eighty) days beyond the expiry of the warranty.
- 5.14.3 In case the successful bidder fails to submit PBG within the time stipulated, DGRPG at its discretion may cancel the award of contract to the successful bidder without giving any notice and the EMD of the concerned bidder will be forfeited.
- 5.14.4 The Service Provider will not be entitled for any interest on the PBG submitted.
- 5.14.5 DGRPG shall forfeit the performance security in full or in part in the following cases:
 - 5.14.5.1 When the terms and conditions of contract are breached/ infringed and are not cured within a period of 1 month from the date of notice.
 - 5.14.5.2 When a contract is being terminated due to non-performance of the Service Provider.
 - 5.14.5.3 The DGRPG incur any loss due to Service Provider's negligence in carrying out the project implementation as per the agreed terms & conditions.
 - 5.14.5.4 When the PBG is pending to be renewed and the validity is not renewed one month before the expiry of the PBG.

5.14.6 The successful bidder will sign the contract with DGRPG within 20 days of issue of Lol-cum-Work Order. After signing of the contract, no variation in or modification of the term of the contract shall be made except by mutual written amendment signed by both the parties.

5.15 Fraud and corrupt / malpractices

5.15.1 All the bidders must observe the highest standards of ethics during the tender process and execution of contract.

5.15.2 For this purpose, definitions of the terms are set forth as follows:

5.15.2.1 "Corrupt practice" means the offering, giving, receiving or soliciting of anything of value to influence the action of the DGRPG or its personnel in contract executions.

5.15.2.2 "Fraudulent practice" means a misrepresentation of facts, in order to influence a selection process or the execution of a contract, and includes collusive practice among bidders (prior to or after Proposal submission) designed to establish Proposal prices at artificially high or non-competitive levels and to deprive the DGRPG of the benefits of free and open competition.

5.15.2.3 "Unfair trade practice" means supply of services different from what is ordered, or change in the Scope of Work.

5.15.2.4 "Coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the selection process or execution of contract.

5.15.3 DGRPG will reject a proposal for award, if it determines that the bidder recommended for award, has been determined to have been engaged in corrupt, fraudulent or unfair trade practices.

5.15.4 DGRPG will declare a bidder ineligible, either indefinitely or for a stated period of time, for award of contract, if bidder is found to be engaged in corrupt, fraudulent and unfair trade practice in competing for, or in executing, the contract at any point of time.

6 General Contract Conditions

6.1 Standards of performance

6.1.1 The Service Provider shall deliver the services and carry out its obligations under the contract with due diligence and efficiency in accordance with generally accepted professional standards and practices. The Service Provider shall always act in respect of any matter relating to this contract as a faithful Service Provider to the DGRPG. The Service Provider shall always support and safeguard the legitimate interests of the DGRPG, in any dealings with a third party. The Service Provider shall conform to the standards laid down in the tender in totality.

6.2 Confidentiality

6.2.1 Confidential information shall mean and include any and all confidential or proprietary information furnished, in whatever form or medium, or disclosed verbally or otherwise by the Service Provider and/ or the DGRPG to each other including, but not limited to, the services, plans, financial data and personnel statistics, whether or not marked as confidential or proprietary by the parties.

6.2.2 The Service Provider shall ensure that while providing services, all the details and information inside various IT equipment is kept confidential.

6.2.3 During the execution of the project except with the prior written consent of the DGRPG, the Service Provider or its personnel shall not at any time communicate to any person or entity any confidential information acquired in the course of the contract.

6.2.4 The Service Provider will maintain the confidentiality of the data stored on the computer systems of the end customer. The Service Provider will be required to take appropriate actions with respect to its personnel to ensure that the obligations of non-use & non-disclosure

of confidential information are fully satisfied. In case of failure, the DGRPG has the right to take legal action against the firm.

6.3 Termination of contract for default

6.3.1 In the event of default of terms and conditions of this tender or the subsequent contract by the Service Provider, DGRPG shall give 1 months' time to Service Provide for curing such default. In case default remains uncured, DGRPG can terminate the contract by giving 1 months' written notice.

6.4 Termination of contract for insolvency, dissolution etc.

6.4.1 The DGRPG may at any time terminate the Contract by giving written notice to the Service Provider, if the Service Provider becomes bankrupt or otherwise insolvent or in case of dissolution of firm/company or winding up of firm/company. In this event termination will be without compensation to the Service Provider, provided that such termination will not prejudice or affect any right of action or remedy, which has accrued or will accrue thereafter to DGRPG.

6.5 Termination for convenience

6.5.1 The DGRPG reserves the right to terminate, by prior written 1 months' notice, the whole or part of the contract, at any time for its convenience. The notice of termination shall specify that termination is for DGRPG's convenience, the extent to which performance of work under the contract is terminated, and the date upon which such termination becomes effective.

6.6 Force Majeure

6.6.1 The PBG of the Service Provider shall not be forfeited or the contract shall not be terminated for default if and to the extent that delays in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

- 6.6.2 For purposes of this clause, “Force Majeure” means an event beyond the control of the Service Provider and not involving the Service Provider’s fault or negligence, and not foreseeable. Such events may include, but are not restricted to, wars or revolutions, riot or commotion, earthquake, fires, floods, epidemics, and quarantine restrictions.
- 6.6.3 If a Force Majeure situation arises, the Service Provider shall promptly notify the DGRPG in writing of such condition and the cause thereof. Unless otherwise directed by DGRPG in writing, the Service Provider shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.

6.7 Resolution of disputes

- 6.7.1 If any dispute arises between parties, then these would be resolved in following ways:
- 6.7.1.1 Amicable Settlement: Either party of the contract may send a written notice of dispute to the other party. The party receiving the notice of dispute will consider the Notice and respond to it in writing within 30 days after receipt. If that party fails to respond within 30 days, or the dispute cannot be amicably settled within 60 days following the response of that party, then the second Sub-clause of resolution of disputes shall become applicable.
- 6.7.1.2 Arbitration: In case dispute arising between the DGRPG and the Service Provider, which has not been settled amicably, the Service Provider can request the DGRPG to refer the dispute for Arbitration under Arbitration and Conciliation Act, 1996 and amendments thereof. Such disputes shall be referred to a sole Arbitrator mutually appointed by the parties failing which such arbitrator shall be appointed by Hon’ble Punjab and Haryana High Court. The Indian Arbitration and Conciliation Act, 1996 and any statutory modification or re-enactment thereof, shall apply to these

arbitration proceedings. Arbitration proceedings will be held at Mohali. The decision of the arbitrator shall be final and binding upon both the parties. All arbitration awards shall be in writing and shall state the reasons for the award. The expenses of the arbitration as determined by the arbitrator shall be borne equally by the DGRPG and the Service Provider. However, the expenses incurred by each party in connection with the preparation, presentation and litigation shall be borne by the party itself.

6.8 Legal Jurisdiction

6.8.1 All legal disputes between the parties shall be subject to the jurisdiction of the Courts situated in Mohali, Punjab only.

6.9 Contract period

6.9.1 This contract shall be valid for a period of 5 years from the date of acceptance of the installed & commissioned equipment / solution by the DGRPG.

6.10 Outsourcing / subletting

6.10.1 If at any stage, it is found that the work has been subletted, the supply order will be canceled, PBG will be forfeited and payment for the job done will not be made. The contract shall be canceled and DGRPG shall reserve the right to blacklist the vendor.

6.11 Amendment to the contract

6.11.1 The contract signed thereof can be amended by mutual consent of both the parties, provided such amendment is made in writing and signed by both the parties.

- 7.1.1 Through this tender, DGRPG intends to enter into a Contract with the selected bidder for supply, installation & commissioning of Next Generation Firewall (NGFW) in High Availability (HA) mode for PSDC.
- 7.1.2 Punjab State Wide Area Network caters to the external firewall service for the PSDC which is Fortinet Next-Generation firewall (Model - 3601E). With the objective of enhancing security, Service Provider has to deploy internal firewall from different OEM than that of external one.
- 7.1.3 After issuing Lol-cum-Work Order, Service Provider is required to supply the required item. Installation, commissioning, demonstration, 1-week training & testing for minimum 15 days of the equipment would be done by the OEM or its authorized / certified engineer. Service Provider would do necessary coordination with the OEM for the same. Liquidated Damages due to delays in installation & commissioning would have to be borne by the Service Provider.
- 7.1.4 Equipment should be covered under 5 years onsite comprehensive warranty from OEM applicable from the date of acceptance of the installed & commissioned equipment / solution by the DGRPG.
- 7.1.5 The OEM must ensure 24 * 7 * 365 service support during warranty period through phone, email & web portal. Vendor is required to submit the details for the process of logging complaints.
- 7.1.6 The equipment being proposed must be current, based on latest technology and should not be end of sale at the time of bid submission. Further, the OEM shall ensure the availability of spares for atleast 7 years.

7.2 Technical Specifications

The technical specifications of equipment are as mentioned below: -

SN	Minimum requirements/ Description
----	-----------------------------------

1	The solution should have at least 16 X 10G or Higher (SFP/SFP+), 4 X 40G/100G (QSFP/ QSFP+) with all ports fully loaded from day 1.
2	The appliance hardware should be a multicore CPU architecture with a hardened 64 bit operating system to support higher memory. Also, must have minimum 128 GB of RAM or more.
3	Firewall Solution throughput should have at least 50 Gbps.
4	Firewall Solution Threat Prevention throughput should have at least 30 Gbps.
5	Solution must have at least 25 Gbps IPsec VPN throughput
6	Firewall Solution should have at least 5 Lakh new sessions per second or minimum 3,50,000 new Layer 7 sessions per second.
7	Firewall Solution should have at least 32M Concurrent sessions -OR- at least 5 million Layer-7 Concurrent Sessions.
8	1:1 fully redundant AC power supply.
9	Firewall solution based on upto 3U space design form factor.
10	Firewall Solution should have at least 2TB log capability internally/externally along with support for scalable external storage (eg: SAN/RAID) feature.
11	Firewall Solution should have inbuilt redundant hot-swappable power supply and in built hot-swappable/replaceable fans/ tray/ modules.
12	Proposed Solution must support TLS/SSL decryption and inspection (inbound and outbound); includes support for TLS 1.3 and HTTP/2 protocols.
13	Proposed Solution must support User identification and control such as VPNs, captive portal, proxies, Active Directory, eDirectory, Exchange, Terminal Services, XML API.
14	Solution must support Networking feature such as dynamic routing (RIP, OSPF, BGP, multiprotocol BGP), DHCP, DNS, NAT, route redistribution, ECMP, LLDP, tunnel inspection & Deep packet inspection.
15	Proposed Solution must at least 10 Virtual systems such as logical, separately managed firewall instances within a single physical firewall,

	with each virtual system's traffic kept separate and scalable virtual systems.
16	Solution should be capable and support Inline malware prevention automatically enforced through payload-based signatures, updated daily.
17	Solution provides vulnerability-based protections against exploits and evasive techniques on network and application layers, including port scans, buffer overflows, packet fragmentation, and obfuscation as a NGFW.
18	Solution should support Command-and-control activity stopped from exfiltrating data.
19	Ability to stop in-process credential phishing, Custom URL categories, alerts, and notification pages.
20	Proposed solution will be able to provide accurate identification and classification of all devices on a network, including never-before-seen devices with additional IOT requirements.
21	Proposed Solution should have IoT Device security capability which supports ML-based anomaly detection if required in the future with additional licenses.
22	Proposed Solution must detect zero-day malware and exploits with layered security.
23	Proposed solution must have Third-party threat intelligence for automated prevention and automated features to update IoCs (Such as API, Automated, Manual etc).
24	Firewall must support Quick detection of C2 or data theft employing DNS tunneling.
25	Must support automatic prevention from malicious domains identified with real-time analysis and continuously growing global threat intelligence.
26	Firewall should have bidirectional control over the unauthorized transfer of file types and Social Security numbers, credit card numbers, and custom data patterns.

27	Firewall solution should have manual NAT and Auto-NAT, Remote access VPN (SSL, IPsec, client/clientless); mobile threat prevention and policy enforcement based on apps, users, content, device, and device state.
28	The proposed solution Firewall shall support IPv4 and IPv6 and should have Static, RIP, OSPF, OSPFv3 and BGP support.
29	Solution must have minimum operating temperature from 0° to 40° C.
30	Should have more than 10,000 (excluding custom signatures) IPS signatures or more.
31	Solution must have actionable insight into traffic and threats with fully customizable reporting & formats.
32	Solution should support GUI, CLI, REST API.
33	The firewall should be supported Third party log analyzer tools and Log server and SIEM /event correlation module for NGFW & Anti APT.
34	The Firewall solution should support NAT64 & DHCPv6.
35	Should be able to integrate with IAM server & Active Directory and/or LDAP usernames to IP addresses related to security events.
36	Firewall Solution have minimum 1000 site-to-site VPN tunnels & minimum 5000 Client to Site VPN tunnels which may be upgradable at any time as per future requirements of department.
37	Solution must have IOC management / IP reputation intelligence feeds from native/third party and custom lists of IP addresses including a global blacklist.
38	The proposed solution should support Active-Active or Active-Standby.
39	The Appliance OEM must have its own threat intelligence analysis center and should use the global footprint of security deployments for more comprehensive network protection.
40	The Management platform must be accessible & integrable via a web-based/tool based interface as per scope.
41	The management platform should be a dedicated OEM hardware/software appliance for centralized management, logging,

	and reporting. In the case of software, the OEM is responsible for providing the necessary hardware for the solution.
42	The management platform must provide centralized logging and reporting functionality. The management platform must provide a customizable dashboard.
43	Log retention period - 6 month's offline and 3 months' online.
44	IPS signatures should have option to configure actions like terminate a TCP session by issuing TCP Reset packets to each end of the connection or silently drop traffic.
45	Automatic real-time signature generation within 5 minutes without human intervention.
46	The equipment supplied must be compliant with the racks installed in State Data Centre, Mohali which are of size 600 mm X 1000 mm and 4.5 KVA power capacity.
47	High Availability Support is required either in active-active or in active-passive mode.
48	Detecting and blocking IPv6 attacks.
49	Original Manufacturer Authorization Certificate to be submitted along with the bid On Site OEM Warranty (5 Year).

7.3 Delivery & Installation

- 7.3.1 The delivery, installation & commissioning of the equipment should be completed within 45 days from the date of issue of Lol-cum-Work Order.
- 7.3.2 Service Provider will be responsible for ensuring proper packing, delivery and receipt of all the components at the PSDC. No extra payment would be made for delivery. The unit price quoted in the financial bid shall be inclusive of all such charges.
- 7.3.3 Any component if delivered is not operational, will be deemed/treated as non-delivery thereby excluding the DGRPG from all payment obligations under the terms of this contract. Partial delivery of products

is not acceptable and payment would be released as per terms only after full delivery, installation & commissioning.

- 7.3.4 Liquidated Damages are not applicable for reasons attributable to the DGRPG and Force Majeure. However, it is the responsibility of the bidder to prove that the delay is attributed to the DGRPG and Force Majeure. The bidder shall submit the proof authenticated by the bidder and DGRPG's official that the delay is attributed to the DGRPG and Force Majeure along with the bills requesting payment.
